About the Herd

Mr. Turner came to Grandora with his father in 1916. For a number of years they kept milk cows and shipped milk. The Registered Shorthorn Herd was established in 1943 with the purchase of two heifers from Dave Clancy, Vanscoy. Then in 1946 Jack bought four heifers bred by John H. Wilson, Kenaston. The first Registered bull used in the herd was the Frank McGill bred Sir Hardale. Prince Arthur, bred by William Rennie, Flaxcombe, was also used. Then came two bulls from Dugald Gillies - Dellatree's Elegant by Welcome Grove Elegant and Deanna's Peter by Royal James 12th (R. Williams). Before acquiring his present herd sire Mr. Turner used a bull bred by Beal Brothers, Grandora - Bonnie Snowball by Red Dazzler 2nd (S. K. Berry). This was an upstanding, heavy-boned bull with lots of scale and these qualities are noticeable in his offspring. Twelve cows in the sale are by him.

The reason for Mr. Turner dispersing his entire herd of Registered Shorthorns can best be expressed in his own words: "I hate like heck to get rid of the cattle - cattle and wheat go together you know - but I have too much to do and I'm not getting any younger". It is unfortunate indeed that Mr. Turner finds it necessary to sell his herd at this time. However, it is fortunate for you - the breeder - that this sale is taking place. This is one of the few opportunities in the fall of 1963 to buy Registered Shorthorns. The cows for the most part are young, big, strong cows, good producers and good milkers. Carrying, as they do, the service of a grandson of Calrossie Highland Piper, the fabulous MacGillivray imported sire, they would be a worthy addition to any herd. The calves in the sale are the breeders kind or can be fitted to top a 4-H class. These are a good lot of cattle being sold in pasture condition. Let all Shorthorn Breeders in the area show their enthusiasm by being at Jack Turner's dispersal on October 30th.

The terms of the sale are cash. Cheques made payable at par at Saskatoon will be accepted. Settlements are to be made with the clerk immediately at the conclusion of the sale. All stock are at the buyer's risk as soon as sold. Mr. Turner will be pleased to look after the cattle for a few days or help arrange trucking. As this is a dispersal, the cattle carry no guarantee. Being a T.B. Free and Bangs Control Area, the cattle can go right out from the sale.

Ivan's John was obtained privately from Sandy Blair, Drake, as a yearling in 1961. He is a breeders' bull or he will do a job for the commercial man who has learned the merit of crossing cows of other breeds with a good Shorthorn bull. This bull has a good loin, a deep quarter and smooth natural fleshing. The calves are by him and all the cows have been re-exposed to him.
